What Streetcars Mean for Downtown, Overview of Conceptual Alignment Options, Economic & Transit Benefits of Streetcars, LASI Progress Update, Status & Timeline

6:45 – 7:30pm OPEN HOUSE

Individual Concept Review & Input

Intended to be a catalyst for economic development, the streetcar will enhance connections to and the accessibility of Downtown attractions by creating a circulation system that links pedestrians to local and regional transit networks. Come **TELL US** which conceptual alignments you prefer, suggest modifications, and discover alternative options. Your input will actively shape the future of Downtown Los Angeles!

Make sure to visit LASI's new website – www.lastreetcar.org – where you can review materials, including the alignments, before the workshop.
